WE ARE

PROFESSIONAL
COMPETITIVE

AND COMPETENT
IN OUR SERVICE

About us

Metikulous is a software development startup based out of Lahore, Pakistan and Dubai, UAE. Our focus is to develop robust mobile and web applications for startups and enterprises and help them launch an application while respecting their timelines.

[READ MORE >](#)

Our Technologies

Technology is the campfire around which we tell our stories. We tackle business problems with intelligence by using cutting-edge tech and cutting-edge thinking to bring brands to life.

Mobile Development

Every day more and more people use their mobile devices for web browsing. Having a mobile website or a custom mobile application can help increase exposure and user engagement.

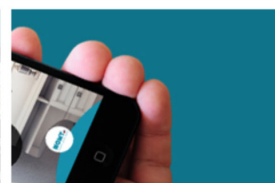

Web Development

When it comes to the web, we are professionals in every way. Our web development services include anything from Content Management Systems (CMS), WordPress Development, Drupal Development, custom web applications, and everything in between.

Get your Free Hearing Conservation Kit

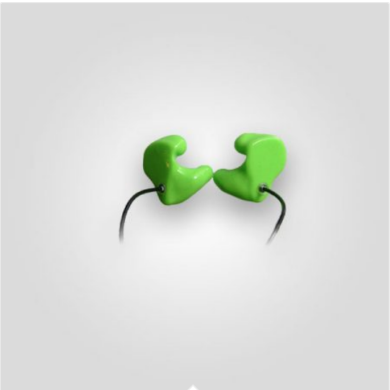

GET FREE KIT

IS YOUR STAFF PROTECTED FROM THE DANGEROUS NOISE LEVELS?

30 million U.S. workers are exposed to hazardous noise levels each year. \$1.5 million in penalties for failing to protect employees from dangerous noise levels in one year. Worker's compensation payments top \$242 million every year for noise-related hearing damage.

The hearing conservation program requires employers to monitor noise exposure levels in a way that accurately identifies employees exposed to noise at or above 85 decibels (dB) averaged over 8 working hours, or an 8-hour time-weighted average (TWA).

One of our most requested camera lines is the selection of **Network IP Cameras**

IP cameras are the most widely used because of their ease of installation and the fact that their appearance blends in nicely with most architectural environments. It makes sense then, that Prolynx would offer a wide selection of IP models in the network camera line. From low cost indoor models to high performance environmental versions, Prolynx has what you are looking for.

Go Green Pakistan

Turning Facebook & Twitter Display Pictures Green

Go Green Pakistan is a purely Pakistani campaign on social media networks over the Internet. Our main purpose of this movement was to change the display pictures of every Pakistani and the people who are friends of Pakistan to a green image. People across the planet send us their images and our team at Go Green Pakistan edit those images manually and put a green background with Pakistan's flag behind the faces. We first targeted the famous Facebook and turned it to green and then we stepped into the Twitter and changed over 10000 display pictures (avatars) of Pakistanis to green within just the short time span of 14 days. Our campaign started at 1st of August 2009 and by the end of 14th August 2009 over 10,000 display pictures were edited by our team. The whole Facebook and twitter was giving the "Kryptonite" green look.

Pakistan's electronic media also got an eye on us and Geo News gave us a coverage over the television.
